

## Fly High

You have the gut  
to be a good pilot  
If you want to take a dare  
And fly in the air  
If you want to have a flight  
In the middle of the night  
What country would you go to?  
Now it's time for verse two

Two hours 'til the gate opens  
Time to go shopping  
Let's go to duty-free  
Because it's totally me  
Let's have some breakfast  
Next to the windows  
Look at the plane  
It's the size of a train!

Get on the plane  
Open the champagne  
Have a nice laugh  
With the staff  
Relaxing in the chair  
Ready to fly in the air  
We fly off the runway  
Trying to get away  
Calling back home  
The seats sitting on the phone  
Look out the window  
Watching the wind blow  
How long 'til we land

I can't wait to get tanned

Land in Spain  
Get off the plane  
Get a taxi to the hotel  
Everything is going well  
Going to eat  
Wearing sandals on my feet  
Finish the dish  
Deep fried fish  
We go to bed  
The manager's name is Ned  
When we turn off the lights  
It makes a loud snap  
Check for mosquito bites  
Can't wait to have a nap  
Yes I can't wait to have a nap.
