

High Wych CE Primary School

High Wych Inclusion Policy

At High Wych we are committed to giving all our children every opportunity to achieve the highest standards and to take part in all aspects of school life. This policy helps to ensure that this happens for all the children in our school, regardless of age, gender, ethnicity, attainment or background.

This SEN Information report is written to comply with the 2014 Children and Families Act and its SEN Code of Practice together with the Equality Act 2010. Enquiries about an individual child's progress should be addressed at first to the class teacher since they are the person who knows the child best. Other enquiries can be addressed to the SENCo. Please make an appointment with the school office if you wish to speak to the SENCo.

Aims and Objectives

High Wych aims to be an inclusive school and this means that equality of opportunity must be a reality for our children. We ensure this through the attention we pay to the different groups of our children within our school.

- Girls and boys
- Minority ethnic and faith groups
- Children with special educational needs
- Children with physical disabilities
- Gifted and talented children
- Children, such as sick children, young carers and children from families under stress
- Children who are at risk of disaffection or exclusion
- Children 'looked after' by the local authority
- Travellers and asylum seekers

The National Curriculum is our starting point for planning a curriculum that meets the specific needs of individuals and groups of children. We do this through:

- Setting suitable learning challenges and targets for learning
- Responding to children's diverse learning needs
- Overcoming potential barriers to learning and assessment for individuals and groups of children
- Providing other curricular opportunities outside the National Curriculum to meet the needs of individuals or groups of children. (this includes speech and language therapy and programmes to develop gross and fine motor skills)

We achieve educational inclusion by continually reviewing what we do, through asking ourselves these key questions:

- Do all our children achieve their best?
- Are there differences in the achievement of different groups of children?
- What are we doing for those children who we know are not achieving their best?
- Are our actions effective?
- Are we successful in promoting racial harmony and preparing children to live in a diverse society?

Teaching and Learning Style

We aim to give all our children the opportunity to succeed and reach the highest level of personal achievement. We analyse the attainment of different groups of pupils to ensure that all pupils are achieving their potential. We also make ongoing assessments of each child's progress. This information is used by teachers to plan for all abilities. For some children we use the programmes of study from earlier key stages. When the attainment of a child falls significantly below the expected level, teachers enable the child to succeed by planning work that is in line with that child's individual needs. Children may be taught in a lower age group and where this is the case it will be decided with the parents and reviewed on a yearly basis to see if the child can go back into their chronological year group.

Where attainment of a child significantly exceeds the expected level of attainment teachers use materials from a higher level or Key Stage, or they extend the breadth of work within the area or areas for which the child shows a particular aptitude. Children may be taught in a higher age group.

Teachers are familiar with the relevant equal opportunities legislation on covering race, gender, age and disability.

Teachers ensure the children:

- Feel secure and know that their contributions are valued
- Appreciate and value the difference they see in others
- Take responsibility for their own actions
- Participate safely in clothing that is appropriate to their religious beliefs
- Are taught in groupings that allow them all to experience success
- Use materials that reflect a range of social and cultural backgrounds, without stereotyping
- Have common curriculum experience that allows for a range of different learning styles
- Have challenging targets that enable them to succeed
- Take part in activities that are differentiated by task as well as outcome
- Are encouraged to participate fully, regardless of disability or medical needs

Children with Disabilities

The school is committed to providing an environment that allows children with disabilities full access to all areas of learning for example most classroom entrances are wide enough for wheelchair access, and the points of entry for our school also allow wheelchair access. Teachers are trained in dyslexia friendly ways, with support from the SPLD outreach team.

Where appropriate, teachers modify teaching and learning. For example, they may give additional time to children to complete certain activities. In their planning teachers will ensure that they give children the opportunity to develop skills in practical aspects of the curriculum.

Teachers will ensure that work for all children:

- Takes account of their pace of learning and the equipment they use
- Takes account of the effort and concentration needed in any learning
- Is adapted or offers alternative activities in those subjects where children are unable to manipulate tools or equipment, or to use certain types of materials
- Allows opportunities for them to take part in educational visits and other activities linked to their studies
- Includes approaches that allow hearing-impaired children to learn about sound in science and music and visually-impaired children to learn about light in science and to use visual resources and images both in art and design in design and technology
- Uses assessment techniques that reflect their individual needs and disabilities

Relationship to other policies

This policy should be read in conjunction with the policies on teaching and learning, the school curriculum, equality and assessment, recording and reporting as well as the SEN information report. (Local Offer)

School Activities

At High Wych we believe that all our children should have access to any school activities. These activities may include:

- School trips
- School journeys
- Local outings
- Clubs

At times we may need to consult with parents or other authorities and it may be necessary, on occasions to impose certain restrictions, if it is deemed that a child may pose a risk to themselves, or others during the activity. Clear risk assessments will be taken before decisions will be made. It is our policy that a physical disability should not exclude a child from any school activities, although in certain circumstances it may be necessary to ask a parent to accompany their child.

If there is cause for concern about a child going on a school trip or journey the Head Teacher will consult the child's parents. However, our intention is that unless there are extreme circumstances all children will be able to go on school trips and journeys. Before any school journey or trip is undertaken, clear guidelines for conduct and behaviour will be given to both children and parents.

Arrangements for monitoring and evaluation

The success of the school's SEN offer and provision is evaluated through school self-evaluation and reporting activities such as:

- Monitoring of classroom practice by the Head, SENCO and subject coordinators
- Monitoring of children's progress and attainment through pupil progress meetings
- Analysis of pupil tracking data and test results for individual pupils and for cohorts
- Progress data for pupils on the SEND register
- Termly monitoring of procedures and practice by the SEND governor
- Feedback from parents and staff, both formal and informal, following meetings to produce IEPs and targets, revise provision and celebrate success.
