

Academia are unique in the market, as our team of industry specialists can help you manage the complete IT lifecycle:

1. We will help you realise your pedagogical strategy, by developing a bespoke **PLAN** and sustainable roadmap to deliver and support your educational objectives.
2. Working with our Tier 1 vendors we will **SUPPLY** the best technology and services to deliver on your vision.
3. Our highly accredited technical division will help **INTEGRATE** the solution into your existing setup, seamlessly.
4. We will support you to **MANAGE** the IT platform, ensuring the infrastructure is resilient and your staff and student data is always secure.
5. When it is time to **REFRESH** your current setup, our dedicated WEEE compliant ReviveIT division will give you money back for your old equipment.

How can we help?

MANAGED IT SUPPORT

Tailored IT support from friendly industry experts for your laptops, servers, network infrastructure, Wi-Fi and cloud solutions. We proactively monitor to ensure maximum uptime and minimal downtime.

DEDICATED INTERNET

Our private dedicated connectivity services offer speeds up to 10Gbps at competitive prices. Cloud ready from day one with low latency, direct connections to O365, G Suite and AWS.

CLOUD SERVICES

We can help you design a sustainable transition to cloud. Providing secure staff and student access to critical services wherever, whenever and on any device. Optimised to support remote learning without the security pitfalls.

UNIFIED COMMS

Empower your remote teams by enabling them to stay connected, communicate effectively, improve productivity and to reduce costs. Combining Voice, Video, Instant Messaging, Conferencing, and Mobility

DEVICE MANAGEMENT

Help protect staff and student information on both BYOD and school owned devices. Remotely lock, wipe, reset and automatically deploy new devices straight out the box with everything needed to start working immediately.

DEVICE-AS-A-SERVICE

A single monthly fee to provision your teams and classrooms with the best technology, network service, data security, cloud services and all the applications needed to support the modern classroom.

IT LIFECYCLE MANAGEMENT

When IT assets reach the end of their working life, it doesn't have to mean disposal. Our ReviveIT process offers you a high security service to data wipe, refurbish and remarket used IT assets, returning residual value as cash back.

DOCUMENT SERVICES

With our Managed Print Service, you can easily print from anywhere, anytime, any device. Secure all documents before, during, and after printing. All while minimising waste, reducing costs & downtime.

CYBER SECURITY

Stay ahead of the game when it comes to cyber threats. We can help you defend against external cyber-attacks, protecting your data at all times, ensuring you are compliant to the latest Information Security Legislation.
