

# Pupil Premium funding strategy 2017/18

## Overview

Pupil Premium funding is additional money delegated to schools, matched to the number of pupils who are receiving free school meals (FSM), have received free school meals in one or more of the previous 6 years (Ever 6), or are a child looked after, a child from a service personnel. It was introduced in April 2011. It is specifically used to raise the attainment of disadvantaged pupils and close the gap between them and their peers.

It is for schools to decide how the Pupil Premium, allocated to schools per FSM pupil, is spent, since they are best placed to assess what additional provision should be made for the individuals within their responsibility. (DfE website)

At High Wych our provision is aimed at improving the progress and attainment of all pupils so groups are similar. For those children who start school with low attainment they should make accelerated progress in order to reach expected standards or above as they move through the school.

High Wych has a relatively low percentage of pupils eligible for Pupil premium and has succeeded in improving the progress and attainment of those eligible pupils. All staff are aware of the importance of focusing on these pupils and this has led to a systematic approach to identifying need based on data analysis. The progress of PP pupils is analysed in detail.

The limited Pupil Premium grant the school receives is spent in a highly focused and targeted way. Lower levels of funding can create challenges chiefly through economies of scale but we ensure all children are supported well and calculate carefully how the money is spent. Individual children's provision is recorded in a class provision map which is scrutinised each term.

## **We take into account the following factors when deciding how to spend PPG**

### 1. High Quality teaching and learning

- Research findings as identified by the EEF (Education Endowment Foundation)
- Actions linked to the priorities from the School Priority Plan
- Provide additional support through an Easter booster school for Year 6 pupils.
- Use of Part time Year 6 teacher to extend more able writers and mathematicians
- Intervention is directed where it is necessary with all pupils benefiting from the focus on high quality whole class teaching, meeting the needs of all pupils including quality feedback and next steps marking, good quality resources and training.
- Year 6 pupils are automatically provided with revision guides
- TAs are trained to support each child's requirements eg 'catch up', Sp&L, etc

### 2. Support to socio/economic difficulties

- To provide support through protective behaviours, counselling and eye screening
- Improving Parental/Carer and pupil engagement to support high aspirations with careful identification of the most suitable provision. To support parents at consultation meetings
- Focus on punctuality and attendance of all children to increase life chances
- To identify those eligible early and support those siblings not eligible

### 3. Enrichment opportunities

- Ensure all PP children attend the educational trips provided to enhance their learning
- Ensure all children have the opportunity to participate in available clubs
- To ensure children have leadership opportunities eg play leaders and lunchtime helpers

## **Monitoring and Evaluation**

We ensure the following:

- Robust systems used to identify pupil premium students
- Parents are encouraged to apply for support if they think they are eligible for FSM.
- Pupils contribute to meetings to review their needs
- Early intervention at Stay and Play sessions in Nursery used to plan ahead
- Interventions are adapted or changed if they are not working
- A variety of data is used to track progress and attainment regularly
- A named governor and SLT maintain an overview of PP spending and its impact. They have an in-depth knowledge of the school community and the barriers to learning the children face.
